I long for the shape of things to be true to their form
Love in a circle, hearts in a line
Molded by sacred design.

But I see a diversity of opinion unfold
Discerning masons building a wall
But I need help to stand, not to fall.

I'm taking a road that I've never been down
I'm doing the best I can
I really believe I'm where I need to be now
Tell me You understand.

Chorus:

I'm following a voice in faithful pursuit
I'm searching my soul to do what I'm called to do
I need Your benediction, where's Your benediction
I'm battling the odds through faces of doubt
And it would mean so much if You could send me out
With Your benediction, I need Your benediction.

--- Instrumental ---

Don't turn and close Your eyes to the vision I see
Don't leave me defenseless in fields of reproach
Now, when I need You the most.

I'm taking a road that I've never been down
Tell me that You'll be there
Helping to turn a discouraging word
Into a word of prayer.

Chorus:

I'm following a voice in faithful pursuit
I'm searching my soul to do what I'm called to do
I need Your benediction, where's Your benediction
I'm battling the odds through faces of doubt
And it would mean so much if You could send me out
With Your benediction, I need Your benediction.

I need Your, I need Your, I need Your

Benediction.

Chorus:

I'm following a voice in faithful pursuit
I'm searching my soul to do what I'm called to do
I need Your benediction, where's Your benediction
I'm battling the odds through faces of doubt
And it would mean so much if You could send me out
With Your benediction, I need Your benediction...
