(Marcus Hummon - Mark Prentice)

I'm a bee charmer for you baby  
Get you honey if you've got the taste  
A little sting now and then that won't bother me  
Don't mind no queen bee buzzin' round my face.

I'm a bee charmer for you, baby  
Get you honey if you've got the taste  
A little sting now and then it will not bother me, no, no  
Don't mind no queen bee buzzin' round my face, no.

Go with you any way the wind blows  
Straight through the fire into the unknown  
Follow my feelings 'cause I know they're supernatural.

I'm a snake handler from the mountains  
Sing them rattlers off to sleep  
And if my baby needs healing, uh, huh  
No fever too hot no cut too deep, no, no, no.

Go with you any way the wind blows  
Straight through the fire into the unknown  
Follow my feelings 'cause I know they're supernatural.

Supernatural.

--- Instrumental ---

I'm a rainmaker in the desert  
Dance and coax those clouds to cry  
Put the bloom back in the meadow  
Flood the faith back into your eyes.

Go with you any way the wind blows  
Straight through the fire into the unknown  
Follow my feelings 'cause I know they're supernatural...
