Repair me
Fill me up
I cant take much more of this ache
The ache that you caused
My dreams are always the same
They dont stop
Sweaty nightmare haunt me...

Crack my ribs and repair this broken heart your
deserting
My heart is on the floor
Why dont you step on it
When I think of all the things youve done

Teary eyed when i wake up
Please say you care this much
You swallowed the key that unlocks these chains
I hope it burns u inside
Inhale your mistake
Sweaty nightmare haunt me...

Crack my ribs and repair this broken heart your
deserting
My heart is on the floor
Why dont you step on it
When I think of all the things youve done
