

Duskfall, The "Age Of Errors"

Visit "[Age Of Errors](#)" on MotoLyrics.com

A final departure - from this world we know

a race lost in a dreamworld

weÃf've reaped the seeds weÃf've sown

One fatal error - of the human race

weÃf're burning our candles

as we end up in flames

This is the final stage

the end of human race

Lets crawl back in...to our caves

Let us arise, the sun sets dawn

another era of life will be born

weÃf'll end this story but we carry on - somewhere,
somehow...

A recollection, of what weÃf've done

a case lost in a dreamworld

we were of chaos spawned

We have scorned the stillborned and ripped up the soil

weÃf've unleashed the madness

that tear this world apart
