Visit "[Turtleduvs](#)" on MotoLyrics.com

You think that love grows
Silently darling
Come on be reasonable
You have made me sing

Like wind when it blows so hard
On a friend, on a turtledove

And you and me are what they might call turtledoves
But you best believe we will lose some feathers
Yeah, you and me are what the man call turtledoves
But even a dove need to face bad weather

Take wing when you're high above
Like a friend, like a turtledove

You think that love grows
Silently darling
Come on be reasonable
You have made me sing

Like wind when it blows so hard
On a friend, on a turtledove

And you and me are what they might call turtledoves
But you best believe we will lose some feathers
Yeah, you and me are what the man call turtledoves
But even a dove need to face bad weather

The harder the wind come I love you turtledove
But sooner or later we'll sing a winter song
Yeah, you and me are what the man call turtledoves
But even a dove need to face bad weather
