[Intro:]

Changed my world...  
New creation in Christ Jesus  
One two, let's get it

[Verse 1:]

I was all alone in a world so cold  
On that road to riches with diamond rings and gold  
Interviews with the top industry dudes  
And I was makin' moves with my old rap group  
I planned to make it big and make it out of the hood  
So mamma would be proud and say her son done good  
I'm looking up to heaven and I asked for a sign  
I never heard nothin' so I stayed on my grind  
But then one night I was struck by the light  
I saw a cloud form into a man up in the sky  
He pointed to the nations all around the globe  
Then he pointed at me like he wanted me to go  
When I woke up I knew God had somethin' for me to do  
But what it was I still didn't have a clue  
Same week I get a phone call out the blue  
"Dwayne I'm going to church d'you wanna come too?"

[Chorus:]

You changed my world (I'm in a whole new world)  
You changed my world (I'm in a whole new world)  
I'm so glad You came and changed my world (I'm in a  
whole new world)

[repeat]

[Verse 2:]

So now I'm sitting in church I'm listening to the service  
Amazed by the songs, chord structures and the verses  
In my mind I'm still tryna figure out  
Why am I here and what that dream was all about  
Next thing the pastor steps to the pulpit  
Talkin' about Jesus I don't wanna hear it  
Cos that meant throwing out all of my porn tapes  
Getting rid of my girlfriends, do what the Lord says  
Man, I got some hard decisions to make  
And I feel my heart beginning to break

Listening to what Jesus did so that we could be saved  
Crucified upon the cross and then He rose from the  
grave  
So when the pastor gave the alter call  
I found myself standing up no hesitation at all  
I surrendered it all, gave my life to the Lord  
He paid a price for my sin I could never afford

[Chorus:]

You changed my world (I'm in a whole new world)  
You changed my world (I'm in a whole new world)  
I'm so glad You came and changed my world (I'm in a  
whole new world)  
[repeat]

[Bridge:]

Now I'm free from darkness that was holding me  
I got that Jesus Peace  
It's that sweet release  
No more chasing the world  
It's got nothing for me  
I'm in a better place  
For all eternity  
Woah!

[Chorus:]

You changed my world (I'm in a whole new world)  
You changed my world (I'm in a whole new world)  
I'm so glad You came and changed my world (I'm in a  
whole new world)  
[repeat]
