Big blue sea - deep blue eyes  
You and me - no goodbyes  
Big bright star - big white moon  
Sail away - me and you  
Don't know what this is  
But I'm drawn right now  
To giving all I am to you  
Giving it up - giving it all away  
Baby don't hold me back  
Right now I'm giving everything I am to you  
Everything to you  
Big black sea - red, red sun  
You and me just begun  
Green, green grass - blue, blue sky  
You and me all through the night  
Don't know what it is that draws me to you  
Makes me wanna give you  
everything I am and more  
giving it up  
giving it all away  
baby, don't hold me back  
right now I'm giving everything to you  
giving it up  
giving it all away  
baby don't hold me back right now...  
right now i'm giving everything i am  
everything i am- everything i am....to you
