"Hard To Get Along With"

Visit "[Hard To Get Along With](#)" on MotoLyrics.com

I promise to be good
to one who could be a little hard to get along with
I could rock you all night
and make you see the light
if you'd be hard to get along with
would you be that someone for me
could you be that someone...
someone hard to get along with

I guess it's my personality
God just made me
someone who needs someone hard to get along with
Sure as one and one is two
I could be so good for you
if you'd be hard to get along with
would you be that someone for me
could you be that someone...
someone hard to get along with

I don't need soft words
or someone sweet
I just need me a man who can fill my every need

I guess it's my personality
God just made me
someone who likes someone hard to get along with
could you be that someone for me, please
would you be that someone for me, baby
would you be that someone for me
Could you be that someone...
I need someone...
Someone hard to get along with
