Hello happiness goodbye loneliness farewell
heartaches and so long strife
No more sadness only gladness my little darling's
coming home tonight

He called me today said he's on her way that he'd be in
on the 6-0-10

He said we had a date warned me don't be late
promised he never ever leave again
Hello happiness goodbye loneliness...

[guitar]

We'll take in the town we'll turn it upside down
New Year is easy comin' early this year
Bad times are a gonna go and the good timmes are a
gonna roll

My little darling's gonna soon be here
Hello happiness goodbye loneliness...
My little darling's coming home tonight
