At nighttime, I go out and see the people
Air goes cool, I'm hurryin' on my way
And dressin' so sweet, all the people to see
They're lookin' at me, all the people to see
When I set my eyes on you
You looked like a kitten
And when you're in the mood
Ah, you look so pretty
Caught a glance in your eyes
fell thru the sky
Glance in your eyes and fell thru the sky
I'm walkin' down a freezin' street
Scarf goes out behind
You say get them away
Please don't say a word
Get me out of here, get me out of here
I hate it here, get me out of here
Nighttime, I go out and see the people
Air goes cool, I'm hurryin' on my way
Caught a glance in your eyes
Fell thru the sky
Glance in your eyes and fell thru the sky
