Oh you'll never miss the water till the well runs dry  
You'll regret each and every time you've made me cry  
You'll never miss me darling till I say goodbye  
You'll never miss the water till the well runs dry

You thought you were taking candy from a baby  
But I caught you with your fingers in the pie  
Now you'd better realize just what you're doing  
Cause you'll never miss the water till the well runs dry  
Oh you'll never miss the water...

[ guitar ]

I've headed up to here with all your cheatin'  
And those little lies you tell me on the sly  
Now you'd better listen close to what I'm sayin'  
Cause you'll never miss the water till the well runs dry  
Oh you'll never miss the water...  
No you'll never miss the water till the well runs dry
