But she's unhappy all the while
Each night a different guy
Does his very best to try but
No one can make my sunshine smile

My sunshine used to smile for me
But then she traded me for style
Now she's got Romeo who'll buy her fancy clothes but
No one can make my sunshine smile

Once her smile could light up the room
And make the sun look dim
Her laugh in her eyes went away
Her makin' my day begin

But since she said goodbye to me
She hasn't smiled for quite a while
I was just her little clown but since I'm not around, well
No one can make my sunshine smile

No one can make my sunshine smile
No one can make my sunshine smile
