I don't look like that picture
But I know that it's me
And I don't sound the same way I did then
But I can sing old song

Made famous way back when
And I can turn the memories loose again
I never thought of money
They just told me it was there

A brand new car for a brand new millionaire
But fame can be a feather that's caught up in the wind
And I can turn the memories loose again
Dreams that disappeared can come alive today

The love you thought was gone, still lingers in a song
I've seen the world through windows from buses, cars
and planes
Success can be a freedom or a chain
I don't regret one moment, all I did was sing

And I can turn the memories loose again

Dreams that disappeared can come alive today
The love you thought was gone, still lingers in a song
I don't regret one moment all I did was sing

And I can turn the memories loose again
And I can turn the memories loose again
