When I close my eyes and I think of you  
You wouldn't believe what comes in view  
Your big brown eyes, your tasty lips  
Your tender sighs, my, my, my, your shapely hips  
You'd be surprised what I visualize

I really tell the world  
You're somethin' else  
And you're my girl

When I lay myself a-down to sleep  
I count your charms and steal the sheep  
The way you walk, your swingin' sway  
The way you talk, hey, hey, hey, the things you say  
I can't believe you belong to me

I really tell the world  
You're somethin' else  
And you're my girl
