"Are You with Me Now?"

Visit "[Are You with Me Now?](#)" on MotoLyrics.com

I looked at you and I thought it
I looked at you and our eyes met
It's not like you didn't notice
It's not like you could forget

I looked at you and I wonder
Where is it we're running off to now
And then we both took something
To help us ease the lying

Are you with me now?
Are you with me now?

Lights are fading everything changing
Hours are turning longer
Where did it all go wrong?
Where did it all go wrong?

Lights are fading everything changing
Hours are turning longer
Where did it all go wrong?
Where did it all go wrong?

Is it that you didn't notice
Is that you on the tip of my tongue
On the tip of my tongue
Is it you that's got me
So awake for so long
Been awake for so long

Are you with me now?
Are you with me now?

lights are fading everything changing
hours are turning longer
where did it all go wrong?
where did it all go wrong?

lights are fading everything changing
hours are turning longer
where did it all go wrong?

where did it all go wrong?

are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?

are you with me now?

lights are fading everything changing
hours are turning longer
where did it all go wrong?
where did it all go wrong?

lights are fading everything changing
hours are turning longer
where did it all go wrong?
where did it all go wrong?

are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
are you fading in and out?
