I wish to tell you dear friend of mine
the way you choose to die
is the worst that can exist
I understand the problems living in this hell
among the people who think to fuck themselves
but if you escape from this false reality
you give them another victory
Take and care
the power of freedom inside of you
Death to all
the animals who sell you bad paradises
Began to seek the will to live
with me
and ask my help I'll be the first you
to give
only in this way we can sure destroy
the gates and chains of your difficulty
I know It's hard but you have not
to die
I'd love to walk with you
forever dear friend of mine
Take and care
the power of freedom inside of you
Death to all
the animals who sell you bad paradises
