Walk out the door and i remembered why you told me
so
careful with people only one side they'll show
cause it's confusing and it freaks me when they talk
and talk
the conversations and the disguises no no no
go on say hi now feel disappointed go
everybody shakes hands we are all the same they know
know
cause its confusing it dissapoints me so so so so

i'm katatonic won't you talk to me
just take advantage lie i will agree
my inner sense won't stop you may not see
i'm katatonic go talk to me
my inner sense won't stop you may not see
i'm katatonic go talk to me

walk out the door and i remembered just what i saw
between the conversations i lost my trust and
cause it's confusing and it freaks me when they just
talk
cause it's confusing and it freaks me when they just
talk talk talk ...

i'm katatonic won't you talk to me
just take advantage lie i will agree
my inner sense won't stop you may to see
i'm katatonic go talk to me
my inner sense won't stop you may not see
i'm katatonic go talk to me
my inner sense won't stop you may not see
im katatonic go talk to me
i will agree
go talk to me.
