"Smile"

Visit "[Smile](#)" on MotoLyrics.com

Turn your head just smile, always really late I was they
Sunday nights is the time to put on your face oh your
face

Smile pretend then try to block me away, away
Turn your head just smile today, just today
The things you taught were true all the stories are new
are they new
Sleep tight have a dream I'll take care of you
I don't know what did say but I trust in you anyway
Sleep tight have a dream I'll take care of you, I'll take
care of you

We, we know
We been blessed for sure
I won't stop trying
To be just with you
oh we know we've been
Blessed for sure
I wont stop trying to be just with you.

Turn your head just smile always really late, I was they
Sunday night its the time to go down your face oh your
face
Smile pretend and then try to block me away, Away
Turn your head just smile I was late, really late.

We we know
We been blessed for sure
I won't stop trying
To be just with you
oh we know we 've been blessed for sure
I wont stop trying to be just with you we know.
