(Homer Joy)

Things like other people have not just dreams that's all  
gone bad  
She's had all the dreamin' she could stand  
Chased our dreams endlessly through it all she stood  
by me  
More than that Lord she was such a friend.  
Dreamin's all I had to give she needed more to live.

She's had all the dreamin' she could stand  
She's had all the dreamin' she could stand  
She want something real she can hold in her hand.  
Things like other people have (not just dreams that's all  
gone bad)  
She's had all the dreamin' she could stand.

--- Instrumental ---

(He was always good to me good as anyone could be  
I was always part of all his plans  
Each time his world would crash and burn  
He never had one place to turn.  
He's had all the dreamin' he could stand.

She's had all the dreamin' she could stand  
She's had all the dreamin' she could stand  
She want something real she can hold in her hand.  
Things like other people have (not just dreams that's all  
gone bad)  
She's had all the dreamin' she could stand.

Things like other people have (not just dreams that's all  
gone bad)  
She's had all the dreamin' she could stand...
