Somehow I'm not gettin' through the years for you
don't treat me like you used to do
I see a far away look in your eyes and I'm afraid that
we're saying goodbye
I had a bad bad dream last night I dreamed that
someone else was holding you tight
Another's arms were holding you another's lips were
kissing you
I had a bad bad dream last night
[steel]
Oh I don't hardly know you anymore for you don't act
the same as before
Hold me close and whisper I love you and that my bad
bad dream won't come true
I had a bad bad dream last night...
