Who's gonna love you after I've gone away  
Who's gonna kiss the lips that I kissed today  
Who's gonna hold you when you're old and gray oh  
don't let true love slip away  
For once in a lifetime true love comes along so handle  
it gently don't let it go wrong  
Treat it with kindness or soon it will fade if you let true  
love slip away  
[ ac.guitar ]  
For true love is something that money can't buy  
So don't take it lightly true love's a stuff of life  
You'll travel forever down life's lost highway if you let  
true love slip away  
So don't let true love slip away
