Don't make me a promise and then make me blue
Don't say you love me if it isn't true
Don't make me cry so much
I can't see, please, don't take advantage of me

You might be the kind who'll just lead me on
Then when I need you most that's when you'll be gone
Don't tell me those sweet lies you know
I believe, please, don't take advantage of me

Ever since I first met you, I've been so in love
Day and night, it's you that I'm thinking of
So before you hurt me, I'm begging you
Please, please, don't take advantage of me

Well, you might be the kind who'll just lead me on
Then when I need you most that's when you'll be gone
Don't tell me those sweet lies you know
I believe, please, don't take advantage of me
Please, don't take advantage of me
