(Buck Owens - Red Simpson)

Don't let him break you again heart of glass  
Oh, heart of glass I keep on mending you everytime he  
breaks you in two  
How many more heartaches now must he put us  
through  
Until he stops heart of glass breaking you.

--- Instrumental ---

Oh, heart of glass I hear he's back in town  
I know it won't be long until he'll be around  
Picking up again the pieces of the past  
Oh, tell him no walk away heart of glass  
Don't let him break you again heart of glass...
