(Jim Shaw)

There's a sunshine feelin' deep within my heart
Those warm rays touched me right from the very start
Miles could be between us and we'd not be far apart
With that sunshine feelin' in my heart.

I felt a little spark today I met you
It made a little flicker deep inside
And since that day it's growin' to a love to keep me
warm
And I couldn't put it out now if I try.

There's a sunshine feelin' deep within my heart
Those warm rays touched me right from the very start
Miles could be between us and we'd not be far apart
With that sunshine feelin' in my heart.

--- Instrumental ---

Some folks dread of the winter weather
They shake and shiver when the north winds blow
But as long as I have you to hold me in your arms
I don't care if I'm covered up with snow.

There's a sunshine feelin' deep within my heart
Those warm rays touched me right from the very start
Miles could be between us and we'd not be far apart
With that sunshine feelin' in my heart.

I've got that sunshine feelin' in my heart...
