(Buck Owens)

I don't need a ship to sail the ocean  
I don't need fancy clothes to wear  
I just need your sweet, sweet lips to kiss me  
I just need your tender loving care.

Winter needs the north wind and the snowflakes  
Spring time needs the flowers soft and rare  
I just need to feel your arms around me  
I just need your tender loving care.

--- Instrumental ---

(Day goes by so slow when you're not with me)  
Nights're long and oh, so hard to bare  
(Everything is nothing, dear, without you)  
And I'm nothing without your tender loving care.

I just need your tender loving care...
