"Murdering Creatures"

I don't know why they do it.
in my mind I don't know.
Just killing people on the street.
Those coldbloody creatures.
refr:
murdering creatures
murdering creatures
What the fuck is they thinking with
murdering creatures
murdering creatures
I wouldn't call them human beings

They just kill people,
it doesn't matter who
but one thing is for sure
They are not gonna kill any more
refr:
kill those creatures
kill those creatures
what the fuck is they thinking with
kill those creatures
kill those creatures
I wouldn't call them human beings
