I know that it is true
Of all the things that we must do
To make our life as far
and this world we've just begun

I know that people want the same thing all over the
world
Understand the truth and having the ???
Think about each other we must do
It's the only thing that is true

I know
I know that it's true
oh the thing that we do
I know that it's true
oh now these things will come back on you yeah

(instrumental)

I know that people want the same thing all over the
