When my love... comes down baby
I wanna give it to you
There ain't a thing... oh, you can do darlin'
I wanna give it to you
I said... I'm gonna give it to you
I said... I'm gonna give it to you

Oh, now when I... turn around baby
So slow and patiently
Oh, my thoughts fly straight to you darlin'... and cry out helplessly
They say... you need to be with me
They say... you need to be with me
Oh, they say... you need to be with me
Oh... you need to be with me

Now you know I need you baby
Oh, how I've got to make you see
That there's no other for you
You need to... you need to... you need to be with me

Oh, I stepped from plane to plane
So slow and cautiously
With all the stars about my head now... below my feet the sea
I say... you need to be with me
I say... you need to be with me
Oh, I say... you need to be with me
Oh, you need to... you need to... you need to...
Oh, come on and be with me...
Ohhhhhhhhhh...You need to be with me
I said... come on and be with me
Oh, you need to be with me
I said... you need to be with me
