Death, Pain, Regret
it won't go away
As long as you've been
in The Black Reign
Don't try
to escape
from the
Black Reign
no chances to escape from this horrible place
no more control for hell on your brain
you won't have peace, you won't survive!
there's only one exit, and it's called suicide!
No kings and no commanders
in this black realm
place of evil's empire
This is the Black Reign
Don't try
to escape
from the
Black Reign
the black reign is your stupid vice
you do overdosed and alone in you room
you don't stop smelling your own future
you suck the powder or the powder sucks you?
the powder sucks you...
lead - gordo
lead - neander
the powder sucks you...
