You just start now

Yeah!

Chorus:

This is tragedy, moving off with the majesty

Everybody knows the global what lacks to be

Lost soul in the..

Whole life.... no remorse, you should start now

Yeah! you should start now!

This is tragedy, moving off with the majesty

Everybody knows the global what lacks to be

Lost soul in the..

Whole life.... no remorse, you should start now

Yeah! you should start now!

I'll be on it, you'll be on it, too

You ain't on it, well, you can get it, too

It's a feeling of lost lives that never end

A true... for those strong minds forever been

I need.. a quick reaction, a plain movement

A lame given, a lame movement, you lames's useless

In a .. of many years and upbringing

It's a fact that every year this change is bringing

How you tell a grown man he should stop cheating

How you tell your girl she the one you were cheating?

Now this is nothing that you gotta do

I'm just singing just hold on, and stay true

Cause everyday that could be the last sight of you

Cause any day that could take it right out of you

No stopping you, clear .. objects till was gone

Stay firm, stay straight, be calm!

Chorus:

This is tragedy, moving off with the majesty

Everybody knows the global what lacks to be

Lost soul in the..

Whole life.... no remorse, you should start now

Yeah! you should start now!

Uh, deliver resurrection

Far from... of my endeavors

Cause I'm hitting...

Even that measure that's deeper than the seven sees
At the seasons I make it, these non-believers believe
As I feast, I ricochet... of my brain
Now I start to wonder if niggers really thinking the
same
I'm the.. system for the game
..I don't care about the fame,
Look, I'm with the crew where...
On the way to the... my crew wants to...
Hook up on the... to hit niggers refreshing on the low
From the boulevard the stories where told.
Trying to... play the heart of the...
The North-East corridor, most niggers...
..the masterpieces to commission..

Chorus:

This is tragedy, moving off with the majesty
Everybody knows the global what lacks to be
Lost soul in the..
Whole life.... no remorse, you should start now
Yeah! you should start now!
you should start now
you should start now!

The youth circle is full of daemons and serving
serpents
Who do nothing but curses and leave you in the...
The future is... can only control it.
So stand tall... suffer the fall
As the gates open up, listen up for the call
Cause the time is up, the.. is tough
When the feelings are rush to a...
Over cheating the lust, that's how you saw this?
A bunch of gimmicks as rappers, is what you call this?
Your mind is fooling...

Chorus:

This is tragedy, moving off with the majesty
Everybody knows the global what lacks to be
Lost soul in the..
Whole life.... no remorse, you should start now
Yeah! you should start now!
you should start now
you should start now!
