my empathy, my empathy still makes me feel alive
the suffering, the suffering is always on my mind
my empathy, my empathy still makes me feel alive
so whos the leader? im the leader falling far behind

i take it easy, take it easy, wasting all my time
cuz im so lazy, im so lazy, after all this time
i took it easy, took it easy, wasting all my time
so whos the leader? im the leader falling deeper and
deeper

so tell me the reasons, for living, for giving, perfecting
my freedom
the pieces worth keeping, the start of the ending is
deeper and
deeper and deeper

please dont stop keep pretending
dont look back the world keeps changing
please dont stop just keep pretending
i cant relate, no no
this is for the moments alive without reason (reason)
g-g-g-g-g good times and the bad
but believe me i just can't relate

my empathy, my empathy still makes me feel alive
it sends a shiver, sends a shiver, running down my
spine
my empathy, my empathy still makes me feel alive
so whos the leader? im the leader falling deeper and
deeper
so tell me your reasons for living for giving and want to
believe in
the pieces worth keeping is starting cuz deeper and
deeper and deeper

please dont stop keep pretending
dont look back the world keeps changing
please dont stop just keep pretending
i cant relate, no no
this is for the moments alive without reason (reason)

g-g-g-g-g good times and the bad
but believe me i just can't relate

please dont stop keep pretending
dont look back the world keeps changing
please dont stop just keep pretending
i cant relate, no no
this is for the moments alive without reason (reason)
g-g-g-g-g good times and the bad
but believe me i just can't relate

i just cant relate!
