I need a meaning
I need a soul
This circle's vicious
But precious like gold
Don't push the river
Don't stop the flow
Dead in the water
Caught in the undertow

You are the ocean
I am a wave
Fell out of motion
I lost my way
You are the ocean
I am a wave
I fell out of motion

I learned a lesson
I learned it so well
I won't forget it
I've got a truth to tell
My last confession
My faith was long dead
I pushed the river
Was more than I could bear

You are the ocean
I am a wave
Fell out of motion
I lost my way
You are the ocean
I am a wave
I fell out of motion

With a pain in my heart for so long
A pain in my heart for so long
A pain in my heart for so long
With a pain in my heart

I need a meaning
I need a soul

This circle's vicious
But precious like gold
Don't push the river
Don't stop the flow
Dead in the water
Caught in the undertow

You are the ocean
I am a wave
Fell out of motion
I lost my way
You are the ocean
I am a wave
I fell out of motion

With a pain in my heart for so long
A pain in my heart for so long
A pain in my heart for so long
With a pain in my heart

With a pain in my heart for so long
A pain in my heart for so long
A pain in my heart for so long
With a pain in my heart

I need a meaning
I need a soul
Don't push the river
Don't stop the flow
