

Exies, The "Ego Tryptophane"

Visit "[Ego Tryptophane](#)" on MotoLyrics.com

Hold me closely, don't be careful
Easy does it, don't you know I'm sick to my stomach
Reach your hand back, flick the switch on the portable
Lofi radio and kick the beat in
Yeah...
I'm fading away but
I don't mind, it's so much fun
Getting lost with you in the sun
Ego tryptophane you make me high
You lull me down and I wonder why
Driving faster, so much faster when we get there
Will it be a slow day in the desert?
There's so many daydreams along this road
A fountain in my head is on
I think it might explode
Yeah...
I can't stay awake

I fall asleep and drift away
