Forget myself on your command  
To find you here, from where I stand  
To lose myself in you so

I'll kickout, I'll kickout, before you cage me  
I'll shut down, I'll shut down, till someone saves me  
Cuz I don't know how much more that I can take  
I'll kick out, I'll kick out, before you cage me

I curse the walls, for weeks on end  
If someone's there, won't you sound for help  
Before I run away!

I'll kickout, I'll kickout, before you cage me  
I'll shout down, I'll shout down, till someone saves me  
Cuz I don't know how much more that I can take  
I'll kick out, I'll kick out.....before you cage me

I won't be around for you to drag me...down!

I'll kickout, I'll kickout, before you cage me  
I'll shout down, I'll shout down, till someone saves me  
I'll kickout, I'll kickout, before you cage me  
Before you cage me  
Before you cage me
