O shove it

Wait

I didnt see it coming

I took one last look around

The machines were out of order

The machines are out of order

Wait

I never paid attention daydreamin til the end

I need a second dose of childhood

I need a second dose of childhood

I gotta get gone, get outta the rain

I gotta get gone, get outta the rain

I gotta get gone, get outta the rain

I gotta get gone get gone

Im feelin

No meaning without you

Ive lost all of myself

Im searching for the reason without you

Why cant I just pretend to keep feelin

Keep breathin

To save me from myself

(To save me from myself)

Wait

I cant behave now I sit around Im such a mess

Looked around there was no one else here

(I looked around there was no one else)

Wait

I cant get the wrong blade

I lift up okay to go

Wanna make my lunar orbit

I try my best to absorb it

I gotta get gone, get outta the rain

I gotta get gone, get outta the rain

I gotta get gone, get outta the rain

I gotta get gone get gone

Im feelin
No meaning without you
Ive lost all of myself
Im searching for the reason without you
Why cant I just pretend
To keep feelin
Keep breathin
To save me from myself
(To save me from myself)

(I gotta get gone
Get outta the rain
I get gone
Get outta the rain
I get gone
Get outta the rain)
I gotta get gotta get
Gone
Gotta get gone
Gotta get gone
I gotta get
Gone

Im feelin
No meaning without you
Ive lost all of myself
Im searching for the reason without you
Why cant I just pretend
To keep feelin
Keep breathin
Save me from myself
