You forgot who you are, you forgot what you are
You forgot what you're for, you've forgotten
You forgot where you're from, you forgot where you're
goin'
You forgot everything, you've forgotten

Hey Dreamer, where did you leave your dream?
Where did you leave your dream?
Hey Dreamer, where do you hide your dream?
Where do you hide your dream?

You are a star in the night, you are a wave shining
bright
You are a bird in full flight, you've forgotten
You are a child on the run, you are a ray of the sun
You are everyone, you've forgotten

Hey Dreamer, where did you leave your dream?
Where did you leave your dream?
Hey Dreamer, where do you hide your dream?
Where do you hide your dream?

You are a flame in the wind, you are a leaf in the
breeze
You are a song in the trees, you've forgotten
You are a star in the night, you are a wave shining
bright
You are a bird in full flight, you've forgotten

Hey Dreamer, where did you leave your dream?
Where did you leave your dream?
Hey Dreamer, where do you hide your dream?
Where do you hide your dream?
