*Dream of the night
Dream of the night when I'm with you

*Repeat

**Dream of the night when I'm with you
Just tell me you want me and love me too
If you wanna kiss me and tease me please
Just feel my love or you will miss

Babe don't understand
Love that you don't want to have
Try to kiss me you must comprehend
Looking and holding my hand

***I'm not givin' up and I'm not gonna lose
But you're wasting your time
If you don't touch my body
You know that I am
The right one for you
And with you by my side I will be

*Repeat (x2)

**Repeat

Tell me that you want to stay
Look at me I won't change my mind
Tease me it's coming too late
Believe me this is our night

***Repeat

Dream of the night
Dream of the night when I'm with you

This is it
