

## Susperia "Cage Of Remembrance"

Visit "[Cage Of Remembrance](#)" on MotoLyrics.com

Inside your mind it dwells  
the secrets of your past  
Now you suffer inwardly, yet so silently  
You fight the morning light  
that shines in through the wall  
Then it strikes you in the dark  
There is no way out of here  
You crane your neck, and twist your head  
The voices call for you  
As your skin starts to crawl

Now you sit here in the dark and the cold  
You had it coming once you sold your soul  
I'm here to make sure your sins aren't forgiven  
No absolution and salvation in sight  
Bow down, open wide  
Here I come

Pray, fall away, tribulation  
Lay, everyday, agitation

Forget the trinity, deliverance denied  
Your ass is mine until the day you die

I am the keeper, the punisher of bastards  
Lick my boots and don't you speak a word  
Bow down, open wide  
Your blood is fuel to my destruction machine  
So believe you're in the cage of remembrance

Pray, fall away, tribulation  
Lay, everyday, agitation

Inside your mind it dwells  
The secrets of your past  
Now you suffer completely, and oh so cowardly  
You fight the morning light  
that shines in through the wall  
Then it strikes you in the dusk  
There is no way out of hell  
You close your eyes and sense the end  
The voices call your name

As your skin starts to crawl

Lay down and die
