

## Susperia "Distant Memory"

Visit "[Distant Memory](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Oh distant memory, where have you been and gone  
As I turn back to see, you're still not there with me  
I know you'll never come and I will live with that  
But if you one day come, I'll no longer be the one

Wait in line this fight is mine  
Trust my words it's not your time  
Feel my rage to go run and hide  
Hate yourself you have no pride

I said some time ago I'd be the first to leave  
And when it all went wrong I had myself to blame

I can't take it when I need to take it  
I am wanting everything I'm so alone  
To wait for you is all that I can do  
I need to be with you or die alone

What's alive and what is not  
To be real comes down to how you feel

Now I paid for my mistakes again and again, too long  
to understand  
But when that's said and done, I have myself to blame

Cos I can't see it when I want to see it  
I am needing everything I'm so afraid  
To seek the truth is all that I will do  
To think you would stay and feel at home

Wait for me, just stop the time  
Left to prove you have no pride

I can't watch all this, I hate to know the truth  
So tell me finally what do you want?  
To dream of you is all that I can do  
Something you'd never do in all your time

I can't take it when I need to take it  
I am searching everywhere, I'm so alone  
To wait for you is all that I can do  
I need to be with you or die alone
