I had my chances, and lost them all.
I gave you up, i should have called.
I thought I was the one, but i guess im no fun.
I dont understand this pain theres nothing left to gain.

Chorus

Wish you were here with me,
hold you in my arms today.
We could talk together till three,
Cause you..you are the one for me.

Walking down the streets,
looking for your smile.
wondering if your pretty eyes,
would ever show up.
The other guy...hes cool,
but I wish it was me.
we could talk together,
forever until three.

Chorus

I had my chances,
I lost them all.
took me out on the telephone call.
we chould have talked,
all night long.
But i only wish,
you would listen to this song.

Chorus
