[Verse 1:]

When I first glanced at ya, I knew I had to have ya  
Fly chassis with a sassy manner  
She hold herself in a high standard  
And hella suckers in the hood ain't never ran in her  
Young tender, thoroughbred, born winner  
I know you're busy, but you need to holler at your nigga  
I won't scare you away with fast talk and game  
I wanna know if I can have ya, but I start witch a name  
Who you with? you say that you ain't got no mayn?  
I'm tryin to tell you, girl, I let you star on my team  
A play-maker, make a player slow his pace up  
The type of face a brother wanna see when he wake up  
She works hard nine to five, sometimes more  
Cuz go to school at night, you see she got big goals  
And I don't wanna bring you down, I just wanna come  
along  
Make you moan, make a home, a place that we can  
both grow old  
See, let this truth be told, I'm tryin to leave that fast life  
alone  
To find a woman of my own, so we can get together  
and build  
A foundation that's real and everyday I make you feel  
like a mill'

[Chorus:]

You got me wide open  
But you ain't even knowin

{Shima}

You ain't knowin that I'm wide open  
You got me goin and it's showin  
That I want you  
You ain't feelin me  
I'm caught up indeed  
You got me slippin and I'm trippin  
Off the things you do

[Verse 2:]

You think I'm runnin drag, but I ain't even mad

I bet you all my cash I be the realest that you had  
I wanna treat you lav', but you can't see that half  
I'm tryin to keep you smilin if you just give me a chance  
At times you make me laugh, you got me wide open  
You think it's all a front, swear you ain't even knowin  
If I was runnin drama on ya  
I woulda bend in the wind, baby, hittin corners  
Instead I'm standin right beside you like you know I'm  
'posed to  
Keepin composure, while most fools be in your face  
just tryin to get over  
I see you know my style, me and my mob is wild  
I hear your friends say I'm not trustworthy  
But if you wait a while I shut that madness down  
Proove to you once and for all that I'm deservin  
Of your heart, your mind, your soul, your body, your  
time  
If it's cool, boo, then give me a sign  
Now I ain't tryin to rush you, but a/s, a/p  
Keep a Mac on your mind and holler at me  
I say ain't tryin to rush you, but a/s, a/p  
Keep a Mac on your mind and holler at me

{Shima}

See I been waitin all my life  
To find someone like you  
And now that it's finally you and me  
There's no time to lose  
You're on my mind seven days a week  
No matter what they say  
Cause even though your style is wild  
I like the way you do your thing  
Baby, I'm wide open, too  
I'm lovin me somethin new
