"Happiness and misery"

A thousand people here but I'm alone
My only friend is my dad's radio
Seventeen feels like I'm thirty-four
How do I get myself up off the floor
I need a cure

[chorus 1]
Happiness and misery
I'm up and down so confused
I want to scream
But there's nobody listening

[chorus 2]
Stop the war inside of me
Pull the plug, kill the lights
I can't break free
It's happiness or misery

I wish the clouds would all come out today
Send the rain and wash it all away
Am I going crazy I don't know
I wonder will anybody miss me if I go

[chorus 1]

[chorus 2]

Happiness and misery
I'm up and down so confused
I want to scream

[chorus 2]
