"Hide your love"

Visit "[Hide your love](#)" on MotoLyrics.com

Try every single day
I know you're worth the wait
Am I getting closer or further away
Somewhere behind you're eyes
I know my answer lies
But you wont release it
I wish you would try
To open up and let me see inside

[chorus]

Down deep in your heart I want to be
Down where you hide your love for me
Cause I've got to go, I've got to be
Let me inside down where
You hide your love for me

Round and round we go, circles all I know
Deeper and deeper, endless and slow
Everywhere I turn the same old lesson learned
Over and over I just get burned, so bring me

[chorus]

No, there's nothing you can say
That's ever gonna make me change
Ill always feel this way

Down deep in your heart I want to be
Down where you hide your love for me
Cause I've got to go, I've got to be
Down where you hide your love for me
