### "To love again"

Visit "[To love again](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Id been sleeping way to long  
Searched for the answers but,  
Couldn't find one  
Thought I had it under control  
Yeah I was dying and I didn't even know

[chorus]  
I needed something  
You showed me how to love again  
How to love again  
When I had nothing  
You showed me how to love again  
How to love again

No more crying no more fear  
I've found a way out after all of these years  
No mistaking, I've been changed  
Now and forever ill never be the same

Because when I had nothing  
You showed me how to love again  
How to love again  
I needed something  
You showed me how to love again  
How to love again

Don't wanna go back  
Don't wanna go through that misery  
I love where I'm at  
Wherever you are I want to be  
You're all I need

[chorus]
