make up your mind
take me or leave me
I'll be doin fine
with or without you
I'm wastin my time
lettin you deceive me
the truth is in your eyes
but I deny what I see
and time and time again

CHORUS

I let you get back under my skin
I let you break me down again
I let you in close, way to close
but I see through it
you gave me that smile and I gave in
and you knew that I would
time and again, you pull me in
just to give me up, give me up again

what is a dream
if it doesnt come true
I believe I'll find love
but will it be with you
I never would have thought
that such a pretty little face
would offer me so much
and take all that I had
well I want it back
