Lived with this pain for far too long
Wasted away everything is gone
Nothing out here but a useless shell
Nothing to fear right here is my hell
Gave me choice I'm gonna use it now

Give me the mask I'll put it on
Show me the valve I'll turn it on
Don't try to tell me that I'm doing wrong
'Cause you've not lived in my skin

All my dreams vanish in the haze
Long empty nights and endless days
You gave me a voice you better listen
Yeah, yeah
Give me the mask I'll put it on
Finally go where I belong
Don't try to tell me it hasn't been so long
'Cause you've not lived in my skin - c'mon

Give me the mask I'll put it on
Show me the valve I'll turn it on
Don't try to tell me that I'm doing wrong
'Cause you've not lived in my skin

Lived with this pain for far too long
Just let me go I'm already gone
I'd sell my soul to end it all

Give me the mask I'll put it on
Finally go where I belong
Don't try to tell me it hasn't been so long
'Cause you've not lived in my skin

Give me the mask I'll put it on
Show me the valve I'll turn it on...
