(fabolous)

I guess I ain't got no reason to mingle round
I found a superwoman that can leap from the truck in a
single bound
Mammie, I'm tryna bling you down
So niggas without shades on can't stare when I bring
you round
She put her lips on the weed and pull it
Then work her tongue and me cum faster than a
speeding bullet
Her love's stronger than a locomotive
But only for the f-a-b-o-l-o-u-s
sing to me ma

(lil mo)

Baby they can't play you
cause I'll save you
with my super powers
Boy I'm only human
but I'll be your super woman

They don't make any girls like me no no
Take a girl like me to get a guy like you to understand
all girls aint the same
I'm not your average chic
Cause they can't do it like this
I've been sent to save your day
And things won't be the same (no no they can't play you
cause I'll save you)

Baby they can't play you
cause I'll save you
with my super powers
Boy I'm only human
but I'll be your super woman

Boy I told you once before
You ain't gotta look up in the sky
Cause the girl you need is right before your eyes

Your so sick of all these broads
Ain't got nothing to stand for
Cause with me you won't fall off no baby ooh
(baby I won't let them play you)

Baby they can't play you
cause I'll save you
with my super powers
Boy I'm only human
but I'll be your super woman

Everyday, Everyday
I'll love you in a special way
chickenheads They can't see
they can't see
Now that I'm here, I'll
be right here

(fabolous)

It's superwoman bout to save my day
Them co's I hooked and gave some play
Now I wouldn't even wave that way
I understand why them other chics behave that way
They see the icy S on your chest engraved in grey
whipped i might
You usually get my tips I'm tight
The only green I keep from you is kryptonite
The way that blowing red suit fit your hips so right
I be like de de de de, de de de de de de damn
It's like I'm under your spell
If feelin you is a crime
They gon have to put me under the jail
You probably hear the details that I be in everything
From lairs to CL's to my share of the females but
You know I care for you (care for me)
And anytime this nigga's there for you (there for me)
These feelings I only share for you
This makes it a lil mo clear for you

Baby they can't play you
cause I'll save you
with my super powers
Boy I'm only human
but I'll be your super woman
