Been to a party on Saturday night
Lookin' real cool and dressed just right
Well, I save my money every week
Just so I can spend it on those fine chicks

I got out of my car and opened the door
You know what I was lookin' for
Look at that blonde with the red skin tights
Don't go with her, she's the one that bites

Well, that fine, fine thing with the short, short skirt
Yell she ain't attached and she like to flirt
Well a whole lot of women is were it's at
Hey know boy's won't ya look at that

Now I don't know which way to turn
Everywhere I look my eye balls burn
Short dress, long dress, skinny and fat
Look at that, look at that, look at that, look at that

See them twins with the fishnet hose
I'd take either one or both of those
We'll Sally is the best, lookin' long and lean
She's got the key to my lovin' machine

Now all these girls lookin' just right
With a hip shakin' body on a Saturday night
