Thanks for showin' up,  
I was hopin' that you could;  
You never let me down,  
And my memory's pretty good;  
And after all this time  
I guess I've changed a bit;  
There's something I have to tell you--  
Guess I better get to it...

[chorus:]

I can't see you anymore,  
I found somebody new  
I love with all my heart  
And he feels that way, too;  
I think you'd really like him  
If you ever got to know him;  
I just had to close this door  
So I could let another open;  
I gonna give my life to him,  
But I'd like to have your blessing-  
I'm in heaven here on earth,  
...and you're in heaven.

Remember when you left me,  
You hoped I'd love again;  
Well, I can see a bright tomorrow now  
I couldn't see back then;  
It's not about who's better  
Or who I love the most,  
I'm only flesh and blood--  
I can't keep talkin' to a ghost;

[repeat chorus twice]
