Twilight is fallin.
The sand man is callin
Still I'm stallin.
Don't want the night to fall.
All day I scurry. I hustle and I hurry.
Just got one worry: don't want the night to fall.
Stay outof my dreams, afraid that you do.
When you're in my dreams, I'm deeper than midnight
blue.
Why must you haunt me?
Your memories taunt me.
You don't even want me.
Stay out of my dreams.
